Tony Gravley is the owner and Founder of Next Generation K9, TWG Group LLC. Tony has over 30 years of experience as a trainer instructor, manager and handler of Police and Military Working Dogs.

Tony's training plan is directly modified from his years of training professional detection dogs and teams. The bomb dog must have total focus and desire to find odor, solve the problem and locate source. These workshops will not only tap into problem solving but give your dog the tools to solve problems and bring out motivation to get to source like you have never experienced before! Desire, Drive and Commitment to get to source will be developed through exercises. More importantly, you understand of the "hows" and "whys" will be clarified to make you a more effective trainer after you leave this workshop. Both your training plan and your future trialing experiences will benefit from your newly gained knowledge.

There are two levels of workshops being offered:

- “Intro to Scent Work” Workshop is for dogs who haven't started Scent Work Training or who haven't successfully competed at the Novice level. Tony will be working two, two-hour days with 12 teams.
- The second workshop, “Building A Source Monster,” is for dogs that have succeeded with ORT, Novice levels Tony will be working two, two-hour days with 12 teams.
